Maintaining Britain's waterways

## Narrow Beam Crane Pontoon

Crane maximum capacity 1 tonne with a reach of 6.3 m. The four stabiliser legs create a very stable platform which go to a depth of 1.7 m with a 1 m extension available.

Can be fitted with lifting hook, piling hammer and clamshell grab.

Modular design, each weighs approx. 2 tonne, total pontoon weight 7 tonne. Crane can be taken off to take a mini digger up to 2.5 tonne. When transporting a machine the side stability tanks can be swung around to the rear of the vessel to enable it to pass through locks or narrow bridges.

- ✓ LENGTH 26ft
- ✓ BEAM 6ft 10 WITHOUT SIDE STABILITY TANKS; 10'10" WITH SIDE STABILITY TANKS
- ✓ HOLD LENGTH 20 FT
- ✓ DRAFT 12" EMPTY (ALLOWS IT TO WORK IN SHALLOW WATERS)
- ✓ CARRYING CAPACITY 1.5 TONNE
- ✓ MOBILISATION - VIA HIAB LORRY
